

Request for Advice or Ruling Ethics Committee

Regional Science Fair				Date	
Project Title					
	First Name	Last Name	Email		
Student 1					
Student 2					
Adult Supervisor					
Scientific Supervisor					
Ethics Chair Regional Science Fair					

Steps:

- Before starting**, if your proposed STEM idea involves the participation of humans or the use of animals, please read: Safety & Ethics in STEM, Ethics in STEM, and the related forms, templates, and policies at mySTEMspace.ca.
- Complete this form to get advice from the Ethics Committee of your Regional Science Fair. Email it to the Chair of the Ethics Committee or other fair official. You can find their information on the regional fair's website, or look up the contact information on the [Regional Fair Locator](#).

Questions to answer on the next page:

1. Projects involving the participation of Humans - Low and High Risk

- Describe your proposed project in a paragraph or two
- Describe any special precautions you will take
- Where will you carry out these experiments?
- Who will be your adult supervisor, and what are their qualifications?
- How many people will participate in your experiment?
- What are their age ranges?
- Attach your Informed Consent Forms in email to the Chair

2. Projects involving the use of Vertebrate Animals and Cephalopods

- Describe your proposed project in a paragraph or two
- Describe any special precautions you will take
- Where will you carry out these experiments?
- Who will be your adult supervisor, and what are their qualifications?
- Where will you obtain the animals?
- How will they be cared for during your project?
- What will happen to the animals after your project is finished?
- Attach Use of Animals Research Plan and Form 4.1C in email to the Chair

Description of your idea:

Advice or Ruling from the Ethics Committee¹

This section is to be left blank and will be completed by the Ethics Committee
